# Display Protection Plan

As part of the standard, Field-Ready Warranty, the display on F5v, C5v, J3500 and CL900 systems are covered against any defects in materials or workmanship.

However, if the display is accidentally cracked or damaged, it is replaced at the customers' expense, which can be costly. Under the **Display Protection Plan (DPP)**, customers can purchase additional coverage which will allow them to have damaged displays replaced\* at no charge, includes shipping cost.

DPP must be purchased for the Motion F5v, C5v, J3500 and CL900 Tablet PCs at the time of the tablet PC purchase.

## Benefits

Spills, drops and accidents happen! With DPP, you can get your Motion Tablet PC's display replaced\* at no charge, includes shipping cost.

## Quick Specifications

Motion offers DPP in 1 and 3-year periods to complement your tablet's warranty coverage. DPP covers all screen damages not listed below on your Motion Tablet PC.

### ***This plan will not cover damages incurred, directly or indirectly, by:***

- any loss, repair or replacement necessitated by acts of God
- misuse, abuse or damage caused by non-authorized repair personnel
- preexisting conditions for any covered component or defect that is subject to neglect, abuse or damage prior to the issuance of the coverage
- cosmetic damages to any products, components or consumable parts
- loss or damage to stored data, repairs related to installed software, computer viruses, restoration of software to your product or computer hardware that is added after the original purchase
- scratches are considered cosmetic damages and do not qualify for replacement displays

\* Limit one incident per system under protection for each 12 month period of coverage.
